**Start date** 20 December 2024

**End Date** 10 January 2025

**Description**

The management of the Rwanda TVET Board (RTB), through the Skills Development Fund (SDF), is pleased to announce that the call for grant proposals is now open to all interested institutions. The primary objective of the Skills Development Fund is to address the skills gap faced by private business operators by rapidly increasing the supply of in-demand skills within the labor market. Additionally, the fund aims to help new entrants to the labor market by equipping them with skills that are relevant to current employment needs. To respond to this, Rwanda TVET Board calls for the attention of companies/industries, associations, Trade Unions, Technical Secondary Schools (TSSs), Cooperatives, Vocational Training Centers, Incubation centers, Polytechnics, experienced training providers in business- related fields, local or international organizations that have interest and capacity to provide technical and practical skills and/or leading the Recognition of Prior Learning process, that they can apply for SDF grant as per the call for grant proposals guidance. Prospective applicants for this call will support employer-led short-term training that addresses specific skill requirements. The focus will be on providing labor market-relevant skills
